

Housing 21 Local Accredited Contractors List for repairs and term contractors (Below threshold)

-aiming to enhance information transparency for residents

Updated October 2026

Introduction

Housing 21 has approximately 700 Extra Care and Retirement Living Schemes and operate a devolved procurement model to source local contractors.

This means decision making processes about local contractor awards are made by individual Local Housing Managers and supported by residents. Residents value this approach as it continues to provide a sense of connection to their local community which may have been previously important to them where they lived previously.

These contracts are very low value, and most arrangements are seasonal or arranged on an occasional basis when repairs are required. These services tend to be for things like general building maintenance, gardening and window cleaning services etc.... and for ad hoc repairs.

		Page number
Table 1	'Term Contractors' such as Window cleaners, cleaners, gardeners	2-29
Table 2	Occasional ad hoc repair work e.g. electrician's plumbers, etc...,	30- 93

This list may be subject to change and is reviewed twice a year

For all related enquiries please contact procurementteam@housing21.org.uk

Summary Note:

Other Ad hoc small works or other services between £30,000 and the UK Threshold level are supported by individual Public Notices, as set out in public procurement Act 2023 Section 87 and are not included in these lists

Table 1- 'Term Contractors' such as Window cleaners, cleaners, gardeners etc.....
